

Characteristics:

- \* Brand new, with high quality parts.
- \* Works with 12 V - 24 V DC
- \* 4/8 awg input and output (4 mm diameter)
- \* Easy to use and durable.
- \* Function: Avoid excessive current, protect electrical device.
- \* Apply after the audio power line.
- \* Use instead of an inline fuse holder.
- \* Suitable for auto audio / video system overload protection
- \* Manual push button for open circuit.
- \* Self-check and manual override.
- \* Easy to use with manual reset arm.
- \* No problems when changing the fuse.
- \* Can be mounted on panel or firewall
- \* 12 volts - 20Amp 30Amp 40Amp 50Amp 60Amp 80AMP 100AMP
- \* Size: 98mm (L) x 43mm (W) x 35mm (H)
